Thank You, Barry Hutchins!

Lake Pleasant - The Hamilton County Soil and Water Conservation District honors Barry Hutchins for his 13 years of outstanding service as a District Board of Directors Member. During the December 6 board meeting at the District office in Lake Pleasant, Chairman Robert Morrison presented Barry with an appreciation award. Through Barry's support, educational outreach was expanded, two critical stream erosion projects were completed on Griffin Road and Elbow Creek, invasive species initiatives were addressed, and a watchful eye was kept on water quality. Board members and staff commend Barry for helping to achieve the District's mission of managing and promoting the wise use of natural resources in Hamilton County. His sense of humor will be missed at the monthly board meetings. Ask Barry about his favorite invasive species recipe as he has taken an interest in cooking methods for deep frying Emerald Ash Borers and sautéing garlic mustard. Barry's efforts have made a tremendous difference in keeping Hamilton County lands and waters green and healthy. District staff members wish him a fond farewell as he concludes his service as the Town of Indian Lake's Supervisor and District Board Member.
